*Time - it was truly  
 a painful experience being  
 with you in typing. No  
 honestly you made this (typing)  
 class a lot less boring for  
 me. I would have had a  
 miserable grade if you  
 & your buddy hadn't been  
 around to tell me what  
 the margin stops were!  
 Well have a fantastic

PERCEPTION is the golden key which has been used by the student body this year to open the doors to a glorious future for Pasadena High School. We proudly salute this student body which has been ever sensitive to lasting values and ever patient and steadfast in striving towards their development. Working together towards these high goals required vision, discernment, and unselfishness. All of us who have been teammates here are tremendously grateful for a first year of outstanding merit. As we review our panorama of memories, we are filled with pride.

The Class of 1961 not only has left a rich heritage of high achievements but also has used its appreciations of today's blessings to model a blueprint for tomorrow's dreams.

# SENIORS

For some, graduation is the finishing of another page. For the seniors, it is the completion of a chapter in the book of life.

Turning back the pages to the year 1960, we recall that the birth of Pasadena High was looked upon with great interest and anticipation by students, educators, and parents. Through the year, advancements in learning have been attained while a new and stronger unification of students has been achieved. Now, because of the extreme interest shown by the faculty and parents, Pasadena High School commences this year with the honor and glory so abundant on the old campus.

As we, the seniors, stand at the edge of a new frontier, we are faced with many decisions, hopes, and dreams. These visions will become realities only through a constant effort and desire to progress in this ever-changing, complex world. The challenge is ours; how we meet it will determine the success of our lives.

# **ORGANIZATIONS**

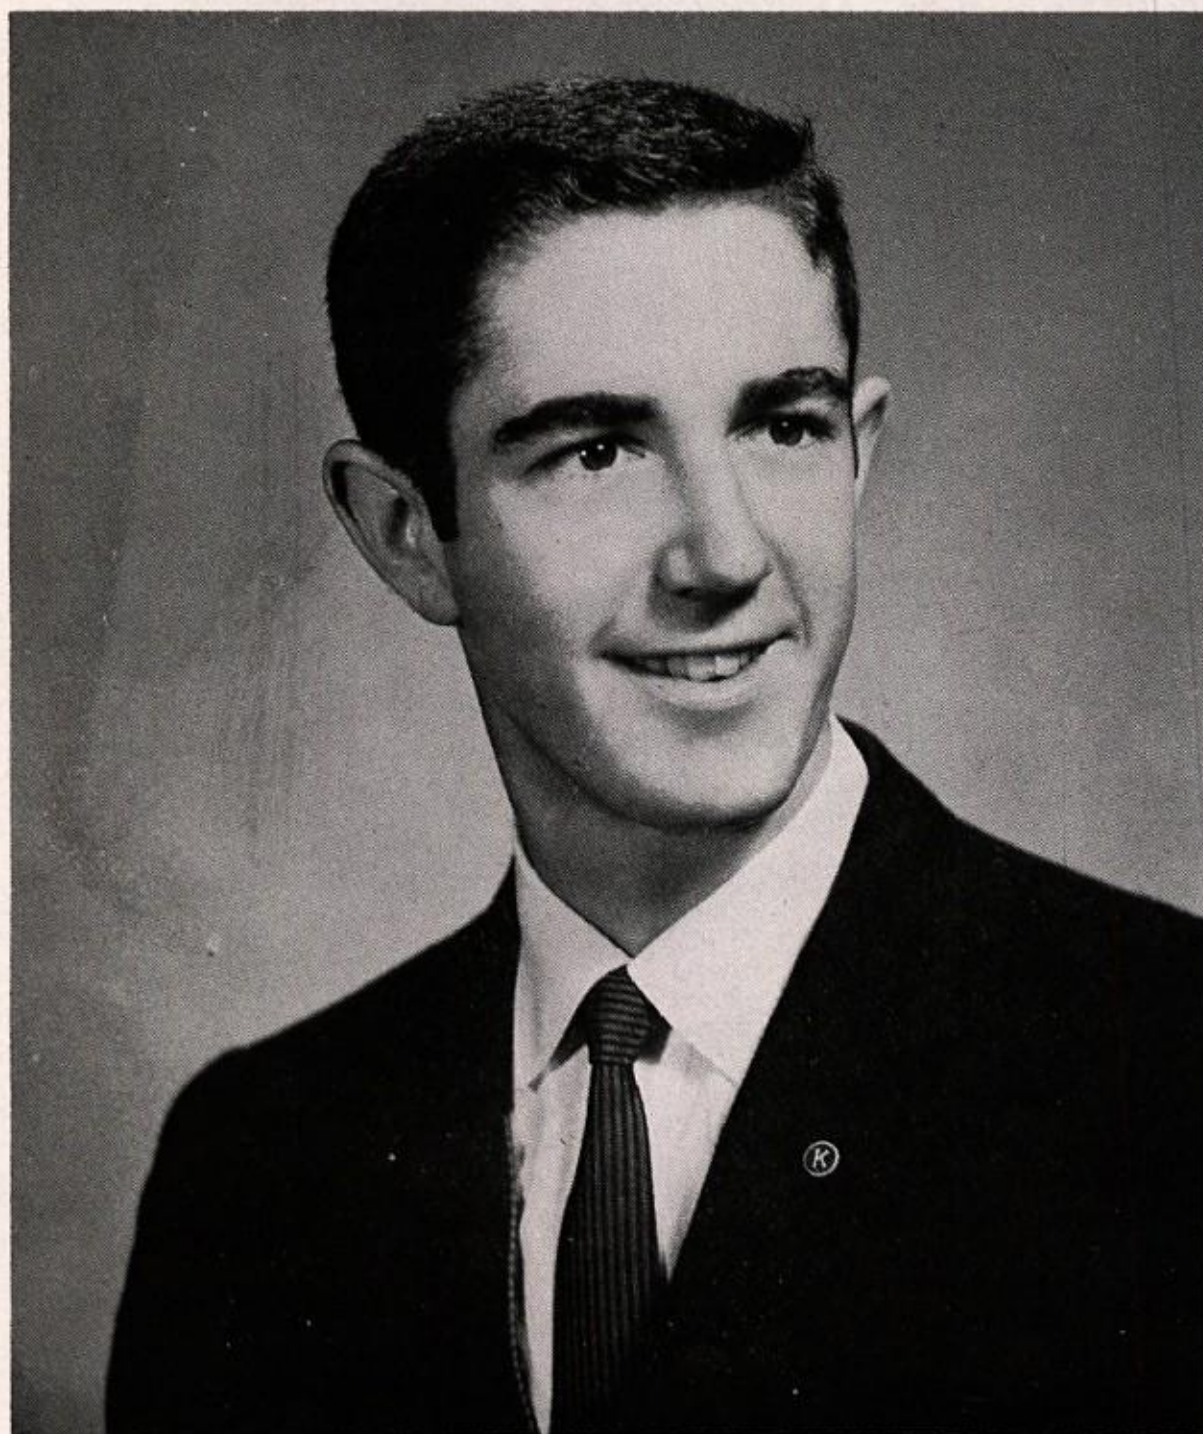

**AL MERIAN**  
Associated Student Body President I

Together, we have made our first year on this campus a successful one. Our success has been in our attempt to set standards on which the future of Pasadena High School will be built. Never, in any field, should we allow these standards to fall below those of excellence. Excellence in the standards of our school must be a constant goal, and will come primarily from well-educated, mature students. Once superior standards are formed, they will main as challenges to the future students of Pasadena High School.

To you, the present students of Pasadena High School, I wish to extend a sincere thank you for your spirited participation in school activities and your support of our growing government.

## ASB PRESIDENTS

**JIM TURRELL**  
Associated Student Body President II

This year on the new Pasadena High School campus has truly been successful. To me it has been indeed gratifying to see the interest taken by you, the students, in your student activities and in your student government.

Throughout my term of office, it was my objective to bring the cabinet closer to the students it serves. It was with your cooperation and the help of my fellow cabinet members that this objective was fulfilled.

My kindest thanks go to you, for your participation, your cooperation, your dedication.

~~§ [scribbled out] §~~

Well, here I am again Tim. Just your little  
ol' sister. You must write to me and let  
me know how you are this summer because I  
will be very interested in knowing what is  
happening to my brother. Don't get into any  
trouble but I just figure you can't with  
only boys up there. Just be sure you watch  
out for all the stray girls that might be running  
around. I probably won't be able to notice you  
or recognize you after you come back, for you  
will be most likely "Black". Just an expression,  
of course. If I don't have you in any of  
my classes next year I don't know what I  
will do. Who can I talk to? Since you are my  
brother I have to depend on you. Lets just hope  
we will be lucky and get some classes together.  
The bell is going to ring now, but I will continue  
when I come back —. Well, I'm back. I bet  
you would have never guessed that. I really  
don't know what to say. I have had fun in  
this class with you (I know I have said that  
before, but it is the truth). Oh yes, Merry Christmas  
& a Happy New Year. I was told to say this.  
Bye for now Love ya Cheryl

Jim:

I have so much to thank you for. You have listened to my problems and have helped me out so much. I am so glad you have been in 3 of my classes and have sat beside me in all 3 of the classes. I can honestly say you have been like a Brother to me and I will never forget you.

I hope you have a wonderful summer this year and I will try and come and see you one day while we are up there. Don't forget to come to church when you can and I will see you there. Don't fall off any mountains or in to any lakes because I like you the way you are now-looking like an ordinary boy, all parts still attached.

Thank you for the food because without you I might have starved. Ha! Ha! Be good in what ever you might do and if you can-remember me a little. May God watch over you and take care of you in the few months to come and bring you back safely to P.H.S. next year. I hope I have ~~enough~~ <sup>even</sup> more classes with you next year so we can have more of our little talks.

I really appreciated them. Thank you again.

See you soon - I hope. Bye for now  
Brother

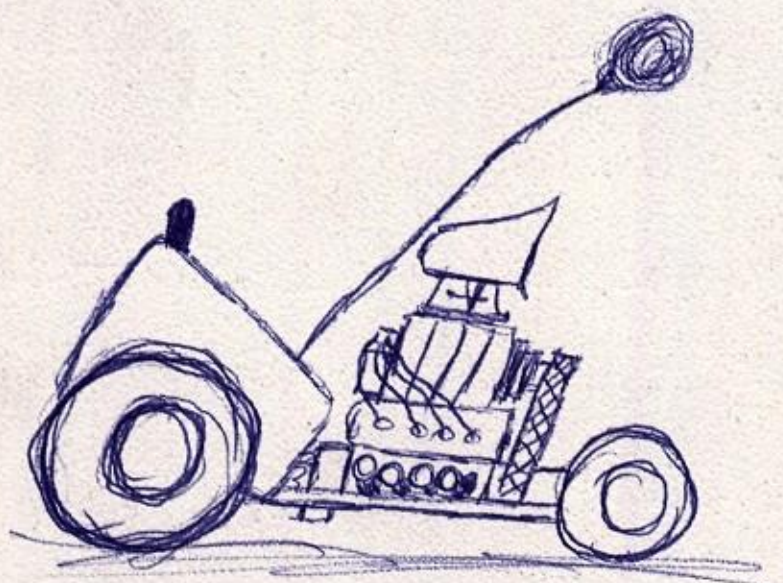

From your sister - Cheryl

~~§ [scribbled out] §~~

Well, here I am again Jim. Just your little ol' sister. You must write to me and let me know how you are this summer because I will be very interested in knowing what is happening to my brother. Don't get into any trouble but I just figure you can't with only boys up there. Just be sure you watch out for all the stray girls that might be running around. I probably won't be able to notice you or recognize you after you come back, for you will be most likely "Black". Just an expression, of course. If I don't have you in any of my classes next year I don't know what I will do. Who can I talk to? Since you are my brother I have to depend on you. Lets just hope we will be lucky and get some classes together. The bell is going to ring now, but I will continue when I come back —. Well, I'm back. I bet you would have never guessed that. I really don't know what to say. I have had fun in this class with you (I know I have said that before, but it is the truth). Oh yes, Merry Christmas & a Happy New Year. I was told to say this.

Bye for now Love ya Cheryl

Jim:

I have so much to thank you for. You have listened to my problems and have helped me out so much. I am so glad you have been in 3 of my classes and have sat beside me in all 3 of the classes. I can honestly say you have been like a Brother to me and I will never forget you.

I hope you have a wonderful summer this year and I will try and come and see you one day while we are up there. Don't forget to come to church when you can and I will see you there.

Don't fall off any mountains or in to any lakes because I like you the way you are now-looking like an ordinary boy, all parts still attached.

Thank you for the food because without you I might have starved. Ha! Ha! Be good in what ever you might do and if you can-remember me a little. May God watch over you and take care of you in the few months to come and bring you back safely to P.H.S. next year. I hope I have ~~an~~ <sup>even</sup> more classes with you next year so we can have more of our little talks.

I really appreciated them. Thank you again.

See you soon - I hope. Bye for now  
Brother
